UC Irvine Extension's Corporate Training

helps you meet the challenge of today's demanding market and create long-term value by increasing your organization's capability, productivity, and competitive edge.

Competition is fierce in today's increasingly complex business environment.

Customers demand that companies deliver more than just *good* products and service. Gaining and sustaining a competitive advantage depends on how well your staff executes.

- How well do your employees meet their objectives?
- How efficiently do they get the job done?
- How satisfied are your customers?

Well-trained employees execute more effectively.

Research shows that they are more efficient, more satisfied, and are proven to remain loyal to the company. A well-trained work force is the key to building a long-term, sustainable advantage.

Together with our content experts, we will identify your specific training needs, time frame, and location preferences.

We will tailor a customized curriculum and help you choose the delivery format that best suits your needs. Consider our weekday on-site classes, short intensive weekend workshops, or a combination thereof.

UC Irvine Extension's team of dedicated customer service professionals will handle all of the logistics of your training program.

From initial consultation through final assessment, our corporate training team remains involved every step of the way to ensure your total satisfaction.

Our commitment to your success is our top priority.

As always, we guarantee the confidentiality of all your proprietary information.

A Program for your Needs.

We offer more than 50 programs including these standards:

- **Project Management**
- **Systems Engineering**
- **Supervisory Leadership**
- **Business Analyst**
- **Medical Product Development**
- **Six Sigma Lean**

Choose from our wide selection of courses or work with our team to design a custom curriculum that meets your company's particular requirements. Visit our Web site to view our complete catalog of available courses.

There has never been a better time to make the right move to improve your competitive advantage. Contact us today, and one of our dedicated corporate account managers will personally respond to your inquiry within 24 hours.

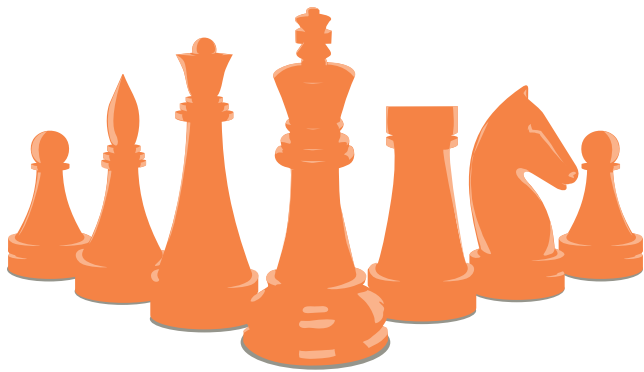

What UC Irvine Extension clients have to say:

"I would highly recommend this partnership to other companies looking to increase their employees' knowledge and skills." – *Erin Butsch, Sr. Human Resources Specialist, Parker Hannifin Corporation, Parker Aerospace*

"Project management is cornerstone to our business, and UC Irvine's program has become a 'must have' for our motivated, ambitious employees." – *Diana Adler, Training Specialist SCE – San Onofre Nuclear Generating Stations (SONGS)*

"The courses are taught by knowledgeable instructors who bring first-hand experiences into the classroom." – *Pamela Johnson, Senior Manager, Engineering Multi-Skill Leadership IDS, SoCal Region, The Boeing Company*

"Working with UC Irvine was great because they understood our needs. It has been a tremendous success within Western Digital and we are looking at doubling the classes we offer on-site from UC Irvine." – *Bob Condie, Senior Director Engineering, Western Digital Corporation, Lake Forest, California*

Partner with the Best.

U.S. News & World Report ranks UC Irvine among the top 50 universities in the nation, and 12th among all public universities.

With over 15 years as a leader in employee development training and education, we have a proven track record of serving the training needs of Fortune 100 as well as smaller entrepreneurial companies.

Unlike unaccredited training organizations, UC Irvine Extension programs have the prestige of UC-approved curriculum and provide your employees all the benefits of University course credit. Additionally, our courses also qualify for tuition reimbursement... a claim other training providers cannot make.

No Two Companies are Alike.

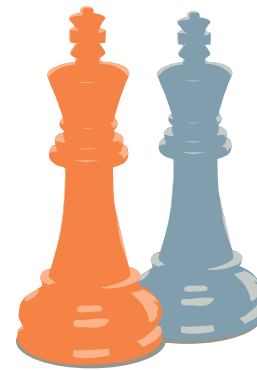

Our clients require a flexible, customizable solution.

UC Irvine Extension's training and development methodology results in a training program that most effectively meets your needs. We focus on management expectations, performance criteria, organizational resources, employee competency, and expected outcomes.

Our steps to a successful program include:

- 1. Consultation:** a pre-training assessment provides the foundation for a custom program that meets your specific training needs and challenges
- 2. Needs Assessment:** produces a tailored training program that drives bottom-line results
- 3. Customization/Standardization:** we can include your company's processes and systems in the curriculum so that your employees learn new skills that can have an immediate impact on performance
- 4. Delivery:** *on-site or online, we deliver anywhere around the globe*

UC Irvine Extension's Corporate Training can be delivered enterprise-wide. Your entire organization will enjoy the unifying benefits of consistent training across all locations. No matter where your divisions and employees are located, we'll come to you — on-site or online.

Unequaled Knowledge and Support.

Our instructors are industry experts and seasoned consultants in their respective fields. They bring practical, real-world experience and insights into the classroom that can result in immediate improvements in skill and capability.

They are supported by our corporate training team led by your account manager who begins the process with an on-site visit.
